## Technical Skills

### HTML, CSS, JAVASCRIPT

- Knowledge about HTML tags like tables, form, semantic, media and iframes.
- CSS Styling, Box Model, Positions, **Flex**, Grid, Transitions, and Media Queries.
- JavaScript knowledge of Functions, ES6, Arrays, Strings, Objects, Browser Object Model, Document Object Model, Events, Promises, **Async** and **Await**, Working with API and JSON Data.

### REACT JS

- I have a foundational understanding of **React.js**, including core concepts like **State Management**, the **useEffect** hook for side effects, and the **useContext** API for global state management.
- I am familiar with **React Router DOM** for navigation and **ReactDOM** for rendering components efficiently. Additionally, I have hands-on experience working with **Functional Components**, **Props**, and **Event Handling** to build interactive user interfaces.
- While I am still learning, I am comfortable developing basic **React** applications and eager to enhance my skills further.

### SQL

- Extensive Knowledge in writing SQL queries, Excellent at performing 'CRUD' operations on any RDBMS.
- Worked on topics like Joins, Sub-queries, Grouping, Functions, and Pseudo Columns.
- Knowledge on the Statements (DDL, DML, TCL, DCL, DQL) and also learned about the normalization on tables.
- Written more than 600+ queries on above topics.

## Projects

### PRODUCTS PROJECT -

- Built a dynamic and responsive **React web application**, leveraging **React state management** and JavaScript features like **map()** and **filter()** for efficient data rendering. [Live](#) [Code](#)
- Implemented reusable components, interactive UI elements, and optimized performance for a smooth user experience. The project follows best practices in modern front-end development, ensuring scalability and maintainability.

### FOODIE HAMBURGER MENU -

- Developed a fully responsive website using **HTML, CSS, and JavaScript**, ensuring seamless user experience across all devices.
- Implemented modern **UI/UX design principles**, interactive elements, and optimized performance for fast loading times. The project features dynamic content, smooth animations, and a mobile-friendly layout. [Live](#) [Code](#)

### AMAZON CLONE -

- Developed a Amazon clone using only **HTML** and **CSS**, replicating the design and layout of the Amazon homepage. Focused a clean UI and structured layout.
- Display Using CSS **Flexbox**, navbar, banner and product category. Styled buttons, **hover** effects and interactive UI element. [Live](#) [Code](#)

## Fresher

Driven and enthusiastic fresher with a solid foundation in core Java and advanced Java technologies. Skilled in front-end development using **HTML**, **CSS**, **JavaScript** and **React Js**, with a focus on modern CSS techniques, as well as JavaScript concepts. Eager to leverage my technical skills and passion for learning to contribute effectively to dynamic software development projects.

## Education

<b>BACHELOR OF SCIENCE IN MATHEMATICS</b> BHIM RAO AMBEDKAR BIHAR UNIVERSITY	<b>57 % [2023]</b>
<b>SENIOR SECONDARY EDUCATION (PCM + CS)</b> GULAB MEMORIAL COLLEGE, BETTIAH (I.Sc.)	<b>87.8 % [2019]</b>
<b>SECONDARY EDUCATION</b> PRAJPTI HIGH SCHOOL, HARSIDDHI (B.S.E.B.)	<b>48 % [2017]</b>

## Certifications

- Pursuing Java Full Stack Web Development Training Course at Qspiders, Delhi in which learnt several technologies like HTML, CSS, JavaScript, ReactJS and have working experience on projects based on these technologies. **[Nov 2024 – Present]**
- Completed the Responsive Web Design from freeCodeCamp on 3rd July 2024. [Certificate](#)

**Declaration-**I hereby confirm that all the above provided information is true and to the best of my knowledge and belief.
